Trump's Remarkable Political Resurgence: Defying Odds Amid Controversy

GEOFFREY A. FIELDS

STATEMENT: As Americans, we must unite to denounce and demand accountability for those attempting to interfere in the 2024 presidential election with the baseless prosecution of former President Donald J. Trump. We must condemn the use of government resources by the ruling class to harass, intimidate, silence, and politically persecute dissenting voices and rivals. Joe Biden's White House and the radical left are leading America to a dark place, and the corporate news media has also done great damage by covering up actual felonies committed by the Deep State and the Biden family

while attacking President Trump and his base relentlessly. Now, the entire world is paying the price, with a Russia-Ukraine war, global inflation, record-level border crossings, massive crime spikes, and failing banks.

STORY

In the tumultuous realm of American politics, one individual's journey stands out as an extraordinary tale of resilience and tenacity. Former President Donald Trump, a polarizing figure who's weathering relentless investigations, indictments, and contentious allegations, now finds himself on the brink of what could be a historic political comeback. Despite Democrats doing everything they can to stop him, Trump's historic "floor of support" and rising poll numbers signify a problem for the Democrats. Independents are swinging +18 for Trump over Biden, meaning if the election were held today - Trump would win. A formidable resurgence that has confounded critics and captivated the nation. Trump's political revival gives American's hope as the Democratic party's illegal use of the law destroys the Nation. Polls show Americans perceive their cherished traditions are under siege by Joe Biden, socialists and radical left Governors, Mayors, DAs, AGs, and prosecutors.

Trump's Political Redemption: A Journey of Defiance

When Donald Trump announced his intent to re-enter the political fray, many anticipated the fervor that awaited him. Emerging from the storm of impeachment proceedings and relentless legal inquiries, Trump's resolve has struck a chord with his followers, reigniting their passion and hope for a better America. Trump symbolizes the indomitable American spirit, characterized by perseverance, unyielding determination, and retribution.

Rising Poll Numbers: Popular Appeal

Trump's poll numbers have surged. It seems 10 different national polls have been put out in the past 72 hours, and they all tell the same story about the Republican Primary election. Former President Donald Trump holds a smashing — and exponential — lead over the GOP field, including Florida Gov. Ron DeSantis. Trump is a “founding father level president” supporters say; no candidate running against him warrants any consideration, only RINOS and never Trumpers don't understand that. Additionally, a growing segment of the American electorate views prolonged investigations as a distraction from more pressing national issues and crises caused by the Biden Administration. Issues matter: Crime, Immigration, Economy, Parents Rights, Foreign Policy – all key areas that favor Trump.

Dems Using The Law as a Political Weapon Backfires

Trust in media, law enforcement and Government agencies has plummeted to new lows. Lawfare against President Trump will backfire. Americans see actual crimes, bribes - being exposed that President Biden was involved in. Deep State child trafficking and influence peddling operations being ignored by the Supreme Court and law enforcement apparatus. Big Tech censorship on conservatives and patriots online.. But they indict Trump? Americans see through this.

Threat to American Traditions: The Specter of Political Persecution

The indictment of former President Donald Trump is abhorrent and unacceptable. Political persecution cannot be tolerated in any society that claims to uphold the values of freedom, justice, and democracy. This blatant election interference undermines the rule of law and threatens the stability and well-being of our entire nation.

I unequivocally condemn the police state the Democrats have created and call on all Americans to stand with President Trump and immediately endorse his campaign for the presidency in 2024.
