

Statement from TTA President, Geoffrey A. Fields

We must hold the Chinese Communist Party accountable. Demand the White House, Lawmakers and the Olympic Committee withdraw and remove the 2022 Olympics from Beijing. China can no longer hide in broad daylight, given cover by Democrats and the mainstream media. China deliberately released Coronavirus into the world then proceeded to cover their tracks with help from US Media outlets and the corrupt World Health Organization.

Crimes against humanity are considered among the gravest human rights abuses under international law. The Chinese government steals intellectual property, oppresses and tortures millions of Uyghurs and other Turkic Muslims in the region, Chinese whistleblowers have gone missing, China continues to brazenly claim International waters, Threaten Taiwan, Hong Kong, Japan, America and her allies. Millions of people have died as a result of Covid-19 and they think the World should turn a blind eye and let them host the Olympics?

The Chinese Communist Party's day of judgment is coming. They will be held accountable on the world stage like Nazi's at the Nuremberg trials. The CCP's influence over the West has grown far too vast - from our Democratic Party Lawmakers, our classrooms, the Entertainment Industry and now the White House. Demand governments worldwide to not only perform a diplomatic boycott of the 2022 Beijing Olympics but, Demand the IOC immediately relocate the 2022 Olympics.

The United States must be unrivaled. We must expand our Navy to counter China's rising threat, remove China from the UN and thus begin the inevitable decoupling process from China.
