

Statement By TTA President Geoffrey A. Fields

I've decided not to run for Mayor of Kalamazoo in 2024. It's a very tough decision. However, I know what I would need to win and quite frankly given the current leadership elections on the state and national level in the GOP, and given how they abandoned all of our candidates for Governor, Senate. Secretary of State and down Ballot, it's clear the RNC and MIGOP in its current capacity has no interest in supporting grassroots candidates.

In order to beat the Democrats in a stronghold like Kalamazoo it would require an 'all hands on deck' approach. Current Mayor Anderson is crooked and compromised. It saddens me that I won't be facing him this election. Crime is rampant, Our water is dirty and the schools are a mess and all David Anderson has time to do is continue being the failed politician that he is. The people want change! Nobody was willing to step up and challenge him BUT ME!

I want to thank the Local Republican Party in Kalamazoo, Specifically Kelly Sackett for the sincere opportunity. My mission to create change does not end here. This is only the beginning of the biggest grassroots movement to sweep Kalamazoo in history. Kalamazoo will lead the fight in flipping Michigan RED again.
