

Statement By TTA President Geoffrey A. Fields:

“There needs to be a change in leadership in Kalamazoo. David Anderson is bad news! He has sold our city out to big pharma and special interest billionaires, turning Kalamazoo into a woke, weak, company town. Violent crime has skyrocketed 269%, our water is dirty, young children are being taught gender identity politics, and all David has time to do is continue to be the failed politician that he is. David Anderson is the worst mayor in the history of Kalamazoo! Nothing but a puppet of the radical left! The reason why I’m running for mayor is that Kalamazoo needs a voice. Parents need to be empowered and their rights need to be protected regarding their children’s education. We need someone who will restore peace and security and invest more in law enforcement, not defund the police. I am running to protect Kalamazoo!”
